

HASSAN KASHAKESH

MOBILE APP DEVELOPER | FLUTTER FULL-STACK DEVELOPER

+961 – 71 292 796 | hassankashakesh313@gmail.com | [linkedin.com/in/hassan-kashakesh-b8b5272b2](https://www.linkedin.com/in/hassan-kashakesh-b8b5272b2)

Lebanese | D.O.B March 29th, 2003 | Beirut, Lebanon

Passionate and results-driven Mobile App Developer with 2+ years of experience in Flutter full-stack development, building and deploying scalable mobile applications. Experienced in delivering end-to-end solutions from UI/UX design to backend integration, with additional exposure to cybersecurity and software development workflows. Seeking a challenging role in mobile app development where I can leverage my technical skills and contribute to innovative projects.

PROFESSIONAL EXPERIENCE

AL IMAN TV – Lebanon

Developer – Broadcasting & Programming Department

2022 – 2024

- Developed interactive software tools and automation solutions to streamline broadcasting operations.
- Collaborated with cross-functional teams to enhance workflow efficiency and programming processes.
- Assisted in scripting, software solutions, and small-scale application development for broadcast management systems.
- Gained experience integrating technical solutions in a real-world media environment, strengthening problem-solving and coding skills.

FREELANCE PROJECTS

- ClinicHub** – Clinic Management System ([clinichub.life](https://www.clinichub.life))
 - Developed a full-stack application for clinic management, handling patient records, appointments, and billing.
 - Integrated secure database management and cloud functionalities.
- Tahajjad** – Islamic Services App
 - Designed and implemented a mobile app combining multiple Islamic services in one intuitive interface.
 - Focused on smooth user experience and cross-platform compatibility.

EDUCATION

AL MAAREF UNIVERSITY – North Lebanon

Bachelor's in Computer Science

2026

CERTIFICATIONS & TRAINING

- Cybersecurity Bootcamp** | Yubee.ai | 23 June – 8 Sep 2025
- Tech & Software Exploration Session | Hosted by Devitty & GDG on Campus** | Lebanese University, May 17, 2025
 - Gained practical insights into real-world software development, modern tools, and workflows.
- Cybersecurity Day & Week** | Semicolon & MU University, 2025
